**Section 403(r)(6) Notification**

Dear Sir or Madam:

In accordance with the requirement of section 403(r)(6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statements:

**Promotes Healthy Brain Function**

**DHA (Docosahexaenoic Acid) is naturally produced by the body, but may require supplementation to reach proper levels. DHA is required for normal brain development and is the primary structural fatty acid in the gray matter of the brain and retina of the eye. DHA is necessary for proper mental and visual functioning. Research suggests that DHA may be important for signal transmissions among cells in the brain, eye and nervous system.**

**In the United States DHA levels can be low as a result of poor dietary habits. Your Life® DHA dietary supplement may help raise DHA levels in the blood when taken regularly on the following product:**

**YourLife® DHA**

Very truly yours,

**Leiner Health Products**
